

Community Events Calendar Policy

The inclusion of third-party events in a Community Events calendar prepared by the Somerset County Library is intended to assist in the promotion of activities to educate and enrich our community.

Inclusion in the calendar will be granted for educational, cultural, intellectual, or charitable events that occur in or serve the general population of Somerset County and that are submitted in a timely and organized manner.

Inclusion will not be based upon the viewpoint, beliefs, or affiliations of the organization. Inclusion in the Community Events calendar does not imply library endorsement of organizations or events.

The Library Director, or a designee, is responsible for the implementation of this policy.
